Ref. HE-E821

Wireless mobile column lift for heavy vehicles, 4 × 7.5 t

Set of four battery-powered columns to lift buses, coaches and trucks up to 30 tonnes.

Each column lifts 7.5 tonnes and runs on its own battery with no cables between columns, so they can be set up around the vehicle anywhere in the workshop. Control is from the touch screen, with synchronised columns.

Technical specifications

Set	4 columns
Lifting capacity	30,000 kg
Capacity per column	7,500 kg
Lifting height	1,500 mm
Lifting speed	21 mm/s
Controls	Touch screen and buttons
Working / charging voltage	24 V / 220 V
Battery	80 Ah
Overall dimensions	1,250 × 1,140 × 2,320 mm per column
Motor	4 × 2.2 kW
