

Ref. MSQ-120

Aperture masking foam

The foam roll that keeps overspray out of door shuts, with no hard edge.

Single-sided adhesive foam masking roll, placed in the gaps between two panels before primer or paint is applied. It protects shuts from overspray, avoids paint build-up at the panel edge and limits odours getting into the interior. Removes easily without leaving adhesive residue.

Technical specifications

Dimensions	13 mm × 50 m
Material	Foam
Adhesive	Single-sided
Colour	White
Removal	No adhesive residue
Colours	White

How to use

- Masking door, bonnet and tailgate shuts
- Applying primer without build-up at the panel edge
