Ref. HE-G801

3D wheel aligner, 32-inch screen

The entry-level 3D aligner: every measurement, one column, one big screen.

3D wheel aligner: the cameras track four targets clamped to the wheels and calculate every angle in seconds, with no cables or sensors on the wheels. The column carries a 32-inch HD screen and a 5-megapixel Sony camera; the software guides the operator step by step and is updated free of charge.
