Ref. OUT-111

Pneumatic aerosol filling machine

Fill aerosols with paint colours on demand, in 200 or 450 ml, with just an air connection.

Pneumatic machine with built-in cylinder, connected to a compressed air supply, for filling paint aerosols. It takes 200 ml and 450 ml cans thanks to its built-in height adjustment. A 450 ml can takes about 150 ml of paint, which should not be exceeded.

Technical specifications

Supply	Compressed air (compressor or air pump)
Aerosol sizes	200 ml and 450 ml
Maximum recommended fill	About 150 ml of paint for a 450 ml aerosol
Adjustment	Built-in height adjustment
Dimensions	230 × 160 × 650 mm
Usable life after filling	24 h with the normal hardener ratio; about 1 week with 10 % hardener; about 1 year without hardener

How to use

- Putting colours into aerosols on demand
- Preparing touch-up aerosols for customers
- Filling aerosols with solvent-based paints
